

Payment Options

I am happy to help you achieve your goals and make it possible to take my courses. What works well is to spread out the course payment over time with balances due at the time of the class. This works if you are signing up in advance which gives you more time over time. Pick your desired number of payments:

1 payment has no service fee

2 payments it is \$5

3 or more payments it is an additional \$10.

4 payments it is an additional \$15

5 Payments or more it is \$20

Payments are non refundable but are transferrable as credit to another course or date.

We collect your credit card info over the phone for the deposit and recurring payment. You will be billed then monthly at a date we set. Simple and easy.

Here are some options. We can also discuss something that may work better at different amounts.

Thank you!!
