There is a small refrigerator if you bring a lunch. We will break for lunch for 1 hour and there are many close places to eat nearby like Whole Foods, Publix and eateries downtown. We will also have a small 15 minute break in the am and afternoon.

CLASS FORMAT

You will be giving and receiving shiatsu and cupping during the weekend. Please have short fingernails and wear comfortable loose fitting clothes. You may wish to bring or wear a bathing suit top and bottoms but it is not necessary.

WHAT TO BRING

This will be a fun and inspiring weekend intended to further your knowledge, skills and understanding of meridians, fascia and cupping. If you have these things you will be in the flow! If you don't have all don't stress.

- 2 Flat sheets and a pillow case (a table set up) * A large towel and a small towel * Your pumping cup set if you have one OR see below * A roll of paper towels and 1 package of moist wipes (baby wipes are perfect) * Matches or a lighter * An oil based massage cream.

What I will provide you with:

- * A detailed manual of the course material. * 2 Glass Cups to use in the class and to take home * A gua sha tool * Pumping cups to use during the class

If you wish to purchase your own cupping set please let me know in advance. Pumping cups allow you to manipulate the tension you apply and are ideal for quickly treating an area and for deeper fascial releases. See details below for price and description.

MERIDIAN FACIAL CUPPING EQUIPMENT

These quality Tae Keuk Bu-Hang cupping sets are constructed of high quality lightweight plastic. Each cup is equipped with a premium smooth operating air-locking valve. The set also contains a durable, comfortable, pistol grip nylon hand pump. I recommend having a plastic set. The small one is great but if you see a lot of people back to back and cannot clean right away the larger set is nice bc you have more cups and can be more efficient. I have both and I love them. I even sell the small set to patients for home use.
